## **DATABASE OF NGO ACTIVITIES, 1991**

The Fourth Edition of ACBAR's Database of NGO Activities presents a detailed summary of assistance provided to Afghan refugees in Pakistan and for the rehabilitation of Afghanistan. It represents the work of 82 agencies in all 29 provinces of Afghanistan and the refugee sector. In 1990, NGOs (of which 62 are ACBAR members) spent more than of \$160 million on Afghan programmes.

The Database of NGO Activities complements Operation Salam's Third Consolidated Report (October 1990) which listed 473 projects partly or fully funded by the United Nations, many of which are implemented by NGOs and listed here. But UN funds account for only about one-quarter of the total assistance rendered by NGOs. The majority is from bilateral and private sources.

ACBAR's database is the most comprehensive currently available. It lists projects down to village level, with cross-reference to the sector and agency involved. Its prime function is as tool to prevent duplication in the field. It must be stressed, however, that the information contained here is provided by the agencies themselves; ACBAR has no means of independently verifying or monitoring these projects.

We are indebted to those agencies who took the time to provide the details required. Sadly, a handful of agencies refused or failed to submit information on time, an inherent difficulty in any coordination endeavour.

Finally, the Database of NGO Activities is a credit to Mr Mohammed Ismail Shakir who singlehandedly undertook the task of collating a huge amount of information.

Jon Bennett  
Executive Director  
ACBAR

## GUIDE TO THE FOURTH EDITION

This edition contains information on activities of 82 NGOs. 20 NGOs work with refugees; 21 implement cross-border projects; 41 agencies work both with refugees and cross-border. 29 new agencies were contacted for this edition. Of these, 21 submitted data. The affiliation of the agencies is as follows:

- 43 ACBAR members
- 5 SWABAC members
- 11 ACBAR & SWABAC members
- 6 ICC members
- 1 ACBAR, SWABAC & ICC member
- 16 Other NGOs

To increase the usefulness of the database the following changes have been brought to this edition:

- I. Villages have been listed (the last edition was at district level). For clinics, karezes or schools the villages where projects are located are indicated. Such projects may cover more villages in the neighbouring area. For projects such as seed distribution, food distribution or cash-for-food programmes, the beneficiary villages are listed.
- II. A column "FUNDED BY" has been added which shows the funding source for each project.
- III. The following codes have been added:
  - A. a set of codes for **COMMUNITY WORK**
  - B. a set of codes for **OTHER ACTIVITIES**
  - C. H1 and H2 under **HEALTH**
  - D. R7 under **REPATRIATION & RELIEF**
  - E. A8 under **AGRICULTURE**

The database contains three reports:

1. In the first, data has been sorted alphabetically by location (provinces, districts, and villages), activities in Pakistan being followed by activities in Afghanistan.
2. In the second, data has been sorted by sector codes, again alphabetically. For a list of sector codes see page 158.
3. The last report contains the data sorted alphabetically by agency code. For a list of agency codes see page 158-159.

The data has been submitted by all implementing agencies with a few exceptions. For planned projects -projects not yet underway- agencies were asked to provide information on activities for which funds was more than 50% secured. Finally, no projects listed in the database have been verified by ACBAR.
